

# **FreshCakeSwap**

**Whitepaper**

## **Introduction**

The latest wave of DeFi protocols, we have discerned various platforms occur that enable users to stake their funds in return for the protocols tokens.

The majority of this action has been focused on the Ethereum block chain. As one of the fastest block chains supporting smart contracts, it has a sprawling population of users, developers and equipment for building important decentralized application.

### **What is FreshCakeSwap Finance?**

FreshCakeSwap Finance (\$Fcake) is a Decentralized Exchange for instant swap of Bep-20 token with unique features of Limit Orders, Stop Losses, Sniper, Staking, Yielding form NFTs and wallet cross chain networks and many more.

## **About FreshCakeSwap Finance (\$FreshCake)**

FreshCakeSwap is built on Binance Smart Chain

Considering its position in the Binance Smart Chain ecosystem. FreshCakeSwap contains unique features of Limit Orders, Stop Losses, Sniper, Staking, Yielding form NFTs and wallet cross chain networks and many more. FreshCakeSwap Finance (\$FCake) is the dream home of traders on DeFi World and can be seen as the uniswap of the Bsc network.

FreshCakeSwap Finance (\$Fcake) swap uses an automated market maker (AMM) model. This implies that while you can swap digital assets on the platform, there isn't order book where you are filled with anyone. Rather, you trade against a liquidity pool.

## **Limit Order**

FreshCakeSwap aims to bring in Centralized Exchange (CEX) features that allow FreshCakeSwap users and PancakeSwap to get their swaps at desired prices by leaving instructions to fill buy or sell orders at a specific prices or (better prices). For instance if you think an asset is too expensive at the moment or you are expecting price to drop throughout the day then you simply set a Limit Order to buy at a price below the current market price.

The introduction of Limit Buy/Sell Orders is massive for Binance Smart Chain as it enables users to take profits on the platform and exit in time. FreshCakeSwap Finance users will now have the capacity to effectively buy dips/take profits to take advantage of volatility in the crypto market.

## **Stop Losses**

FreshCakeSwap Finance provides another trading feature that allow FreshCakeSwap and PancakeSwap users to set a maximum allowable loss by activating a market order once a stop price has been met. For instance, if you are holding a token but you would definitely liquidate everything if it were to loss 70% of its value to limit your loss, then you simply need to set the lowest maximum price you would sell and if the market price hit that, your assets are all sold.

## Sniper

FreshCakeSwap Sniper Bot allows you to buy any newly added token from PancakeSwap, Uniswap, Dxsale and any other project that launches tokens in a fast speed rate. (Up to zero seconds from the time of the listing). FreshCakeSwap Snipping will make a big profit for users who uses this new feature. \$FCake snipping tool is quiet easy to use, just place a wallet which the bot will send the bought tokens. The bot only buys the tokens based on the input/amount you configure it to, remember it does not sell them.

## Limit Order, Stop Losses and Sniper Fees

FreshCakeSwap Finance Limit Order, Stop Losses and Sniper charges a 1.5% fee on transactions to reward liquidity providers (LPs). A portion of these fees profits will be distributed to LP Stakers, who receive a 500% annual percentage yield (APY). The rest of the profits go to FreshCakeSwap developers to further expand the project on Binance Smart Chain (BSC).

FreshCakeSwap native \$FCAKE Token is used to pay for a Limit Order and Stop Losses fees and other features on the platform, all users are required to hold an \$FCAKE balance to utilize the FreshCakeSwap functionality.

## **Farm**

FreshCakeSwap (FreshCake) Farm is the method of staking or locking crypto currency in decentralized finance to earn rewards. The theory of \$Fcake farming is an aggregate called liquidity mining which has been developed from the decentralized financial sector. Generally a personal staking can earn token in return for their participation in the application.

## **Stake**

FreshCakeSwap (\$Fcake) Staking is the method of energetically contributing in the confirmation of transaction on the blockchain with a proof of stake (POS) mechanizing anyone with the lowest balance expected to stake a particular cryptocurrency can also confirm transactions on the blockchain and earn reward for this process.

The user assets reserved in a system that enables the staking operation for a specific duration of time and during the storage operation you can earn incomes for a specific duration of time. This process rewards users that have staked a quantity of assets in the network and play a role in the network strength. The locked of crypto asset or currency will provide to confirming all the hopes of the stakeholders in the network and keeps it growing.

## **NFTs**

FreshCake Card is an utility that will be issued on our smart contract serve as a share/form of NFT, this will be given to initial investors who have participated in the presale via our contract address and buy with a minimum of 1 BNB through self-drop system.

## **Cross Chain Wallet**

FreshCake Cross Chain Wallet enables blockchain to communicate to one another. This will be made available on iOS, Android and Web extension with several features.

## **Games**

Today, the majority of games nowadays circulating are online games with a centralized network, this centralized network implies that all data both logins and passwords are stored on the server and regulated by the administrator or owner of the game app. This is different from the blockchain game and Dapp concept, no data stored and regulated by the administration system that is transparent.

## **Buy – Back**

Bi-Weekly, Buy-Back Strategy is the method of establishing the price and processing of FreshCakeSwap Token in circulation. This gives rise to each asset and has the ability for financial development of investors. This strategy shows that the industry have enough equity to run the projects smoothly with the rewards and prices for investors in the form of FreshCakeSwap Token.

## Tokenomic

### Token Information

- ❖ Token name: FreshCakeSwap
- ❖ Token symbol: FreshCake
- ❖ Token decimal: 18
- ❖ Token address: [0xC22E79cC62b69e98fae36389DDee36Fe39Ee56D6](https://bscscan.com/token/0xC22E79cC62b69e98fae36389DDee36Fe39Ee56D6)
- ❖ Token supply: 150,000,000 FCake
- ❖ Network: BEP – 20
- ❖ Blockchain: Binance Smart Chain (BSC)
- ❖ Explorer:

<https://bscscan.com/token/0xC22E79cC62b69e98fae36389DDee36Fe39Ee56D6>

## Token distribution

47% Pre-sale

40% Staking and Liquidity Rewards

7% Marketing and Promotions

3% Community Airdrop and Bounty program

3% Developer and Team

## Pre- Sale Information

No private sale, only pre-sale, straight to exchange

- ❖ Presale price: 1 BNB = 5,000 FCake + 5,000 FCake Bonus
- ❖ Payment accepted: BNB only
- ❖ Purchase via: Self-drop (Investor will interact with our contract address in Binance Smart Chain and receive token automatically)
- ❖ Soft Cap: 2000 BNB
- ❖ Hard Cap: 5000 BNB

All raise funds will be utilized for projects, liquidity, listing fees on the exchange  
Bi-weekly Buy-Back Strategy, and expand the community.

Note: if soft cap not reach, the funds will be returned to all investors wallet address.

## Bonus

- ❖ Presale phase 1 period:- 15days with 100% bonus  
Price \$0.03 per FCake
- ❖ Presale phase 2 period:- 30days without bonus  
Price \$0.06 per FCake
- ❖ Presale phase 3 period:- 35days without bonus  
Price \$0.09 per FCake
- ❖ You receive your token installing with our Self Drop built in the contact
- ❖ Minimum purchase is 0.1 BNB
- ❖ Minimum purchase to get FreshCake Card for NFTs, is:- 1 BNB  
to get 100% Bonus + FreshCake CARD

## **Airdrop and Bounty Program**

### **Airdrop**

- ❖ Airdrop token allocation: 2% of the total supply
- ❖ Airdrop distribution Date: 1<sup>st</sup> of November
- ❖ Airdrop reward: 500 FCake Token
- ❖ Referral reward: 50 FCake token per each referral
- ❖ This airdrop is limited to 10,000 participants only and we will close once the cap is reached.
- ❖ Airdrop rewards will be distributed to your BEB-20 wallet address.
- ❖ Our team will manually check the details submitted. Do not leave any of our social media till the airdrop distribution date to get the airdrop.

### **Bounty**

- ❖ Bounty token allocation: 1% of the total supply
- ❖ Youtube bounty: create videos and upload on youtube channel minimum of is 5k subscriber and 100 likes with a reward of 2000 FCake Token per video.
- ❖ Telegram bounty: post on Telegram channel minimum is 20k subscribers and 10k viewers with a reward of 20,000 FCake Token Per each channel

## Roadmap

### June 2021

- ❖ Idea and team formed
- ❖ Platform developed

### July 2021

- ❖ Launch FreshCake Project
- ❖ Build the FreshCake Community

### August 2021

- ❖ Launch the airdrop and bounty program
- ❖ FreshCake presale starts

### September 2021

- ❖ List of FreshCake Token on exchange like pancakeswap and locked liquidity
- ❖ List of FreshCake Token on Coin MarketCap
- ❖ List of FreshCake Token on Coingecko

### October 2021

- ❖ List of Fresh Cake Tokens on 4 big exchanges
- ❖ Vip card distribution (NFT)
- ❖ Bi-weekly Buy-Back Strategy Starts

### November 2021

- ❖ Airdrop and bounty distribution
- ❖ FreshCake Application Launch

### December 2021

- ❖ FreshCake Partnership Program
- ❖ Enable FreshCake CARD (NFT)
- ❖ Airdrop for FreshCake CARD holders

## Q1 2022

- ❖ Freshcake game Launch
- ❖ FreshCake Trading Competition
- ❖ Cross Chain Wallet Network Launch
- ❖ Roadmap updates
